

## **donaufestival 2021 postponed to beginning of October**

Due to the pandemic, we have decided to reschedule donaufestival 2021 from the planned springtime dates (april 30.4. – may 2 und may 7. -9) to the autumn **(October 1–3 & 8–10, 2021)**.

The current public event and travel restrictions, the lack of planning security, and the necessary preventive measures make a festival, like the one we have in mind, quite impossible in the original time frame. donaufestival thrives from collective experiences, face-to-face encounters on location, and an array of artistic performances and presentations at different public venues – and we are trying our best to accomplish this in 2021, too.

We are now working diligently on the realisation of the programme in the fall.

But there is already **a teaser in spring:**

Commissioned by donaufestival: The **exhibition *Chaos Theory* by the collective Metahaven** in cooperation with **Kunsthalle Krems** will be on show from **April 30 to June 27** in the Kunsthalle.
